Shreeji Semiconductors was founded in 2005 dealing in genuine industrial electronic Components. In 2011, we started manufacturing Virtual[®] brand of relays. Its application in various electromechanical fields like telecom signal etc. We are manufacturing general purpose relays, relays for industrial purpose and power Relays.

Our Virtual[®] brand relays are professional grade relays that are used in power Industry, medical equipments, industrial & home automation, telecom industry, home appliances, automobile industry and also in light conditioning equipments, industrial controls, Air conditioners etc.

In the near future we are going to introduce solid state and latch relays. We have also developed new power relays in the range/variety of 30 Amp, 50 Amp and 70 Amp.

With this we are also manufacturing VICON[®] brand relays which is our economical range in relays to make the final product more economical and cost effective.

We are committed to meet the new requirement of relay industry with persistent efforts.
